

The pattern is designed to fit a 9" circumference doll head (measure around head after hair has been applied.) You can alter the size by using a proportional scale wheel (available from www.dollmakersjourney.com) or the following chart to determine the percentage of enlargement or reduction on a copy machine.

6" doll head 67% reduction
7" doll head 77% reduction
8" doll head 90% reduction
10" doll head 110% enlargement
11" doll head 122% enlargement
12" doll head 132% enlargement
13" doll head 143% enlargement (this will fit the American Girl Doll)

Be sure you enlarge or reduce the TEMPLATE (sewing line) pattern, and add $\frac{1}{4}$ " seam allowance to the resized finished pattern.
